How does History contribute to the overall school aims? (*Children who are: Successful and Happy; Confident and Resilient; Responsible; Caring; Respectful and Tolerant and Reflective*):

To provide the pupils with a high-quality history education that will help them gain a coherent knowledge and understanding of Britain's past and that of the wider world. To inspire pupils' curiosity to know more about the past. The pupils will develop a sense of chronology, and through this they will develop a sense of identity and a cultural understanding based on their historical heritage and will learn to value their own and other people's cultures in modern multicultural Britain. By considering how people lived in the past, they are better able to make their own life choices today. Historical inquiry allows the student to question, interpret, explain and communicate their reasoning as an historian.
